"[J]ust as theories of writing derived only from first language writers 'can at best be extremely tentative and at worst invalid' (Silva, Leki, & Carson, 1997, p. 402), theories of second language writing derived only from one language or one context are also limited.

What Is a Second Language (L2)? - ThoughtCo

The process of speech and language development in infants and children is complex and interrelated. For normal communication to develop, there must be an integration of anatomy and physiology of the speech systems, neurological development, and interactions that encourage infants and children for communication attempts. Language development includes both receptive and expressive language.

Theories of Speech & Language Development - Language ...

The behaviourist B. F. Skinner then proposed this theory as an explanation for language acquisition in humans. In *Verbal Behaviour* (1957), he stated: "The basic processes and relations which give verbal behaviour its special characteristics are now fairly well understood. Much of the experimental work responsible for this advance has

THEORIES OF LANGUAGE ACQUISITION - dahlia palmer

Early Theories. One of the earliest scientific explanations of language acquisition was provided by Skinner (1957). As one of the pioneers of Behaviorism, he accounted for language development by means of environmental influence. Skinner argued that children learn language based on behaviorist reinforcement principles by associating words with meanings.
