The MNS antigen system is a human blood group system based upon two genes (glycophorin A and glycophorin B) on chromosome 4. There are currently 46 antigens in the system, but the five most important are called M, N, S, s, and U. . The system can be thought of as two separate groups: the M and N antigens are at one location on the ECM and S, s, and U are on a closely related location.
