Please click on a topic below to see the problems and and their solutions included in that topic:

Financial and managerial accounting problems and solutions ...

Management accounting does not create a business management utopia. Management accountants may create inaccurate cost allocations that can over-cost the individual goods and services a company produces. Consumer products with artificially high production costs will lead to higher than average consumer prices and potentially lower sales.

Accounting Problems and Solutions I Accountancy Knowledge

A training in accounting requires students to develop problem solving skills. These skills are developed through the use of case studies. Many of those cases have the same structure: some data are provided and students are invited to compute one or more unknowns. The main issue in our research was the computation of 'operating income'.
