Mean (Average), Median, Mode, and Range Worksheets

Mean, Median, Mode and Range Worksheets These worksheets introduce the concepts of mean, median, mode and range. These values are calculated on sequences of numbers and can be used to provide general statistics or summaries about groups of measurements or other groups of data.

Mean, Median, Mode and Range Worksheets

Getting Started with Mean, Median, Mode and Range Problems. The worksheets on this page require kids to calculate the mean, median, range and mode for small sets of numbers, all of which are easy enough to add up on paper without the aid of a calculator. These are great practice tools for introducing concepts like mean or median because the sets of numbers are small enough to focus on the techniques to compute these statistics without getting bogged down in the calculations themselves.

Math Worksheets for Mean, Median, Mode and Range

Worksheets are Finding the mean median mode practice problems, Lesson 13 mean median mode and range, Name averages word problems, Afda name mean median mode range practice date fill, Measures of central tendency mean median and mode examples, Word problem practice workbook, Mean median mode range level 1 s1, Center and spread of data.
