"Mastering is the final chance you get to sonically change your music through techniques such as EQ and compression and the last chance you get to bring out the best of your sound. As a mastering engineer it's my job to make all the individual elements of the song gel together in harmony, as well as balancing the song tonally with EQ and removing minor flaws such as pops and clicks.

To fully understand key signatures you'll have to take a look at the circle of fifths. But there's a simple tip to read key signatures quickly to know which key you're in. For major keys with sharps: the last sharp in the key signature is the leading tone of the key. The leading tone is 7th degree in the scale.
