Super Readers - National Geographic Kids

Students use prior knowledge, a photo gallery, and a video to discuss what they already know about extreme weather on Earth and brainstorm and categorize a list of weather-related words and phrases. Then they identify the necessary conditions for weather events to occur, and the factors that affect extreme weather.

National Geographic

In fact, this is the same for many other places around the world.

Most people seem to have experienced weather that was hotter, wetter, drier or wilder than normal. This article, based on an article by Peter Miller from the September 2013 issue of National Geographic Magazine, looks at what is happening to our weather.

Weather, National Geographic Super Reader : Level 1 by

...

The average weather in a specific region, as well as its variations and extremes over many years, is called climate. For example, the city of Las Vegas in the U.S. state of Nevada is generally dry and hot. Honolulu, the capital of the U.S. state of Hawaii, is also hot, but much more humid and rainy. Climate changes, just like weather.
