The End of Science : Facing the Limits of Knowledge in the ...

Horgan's 1996 book *The End of Science* begins where "The Death of Proof" leaves off: in it, Horgan argues that pure science, defined as "the primordial human quest to understand the universe and our place in it," may be coming to an end. Horgan claims that science will not achieve insights into nature as profound as evolution by natural selection, the double helix, the Big Bang, relativity theory or quantum mechanics. In the future, he suggests, scientists will refine, extend and apply this ...
