Music is the harmony of heaven and earth while rites are the measurement of heaven and earth. Through harmony all things are made known, through measure all things are properly classified. Music comes from heaven, rites are shaped by earthly designs.

Chinese music | Characteristics, History, Instruments ...

According to Chinese legend, Ling Lun, in his travels to the Northeastern China, used his bamboo flutes to enchant the Fenghuang bird, (also known as a phoenix) which was the "king of birds". This myth dates back 8,000 years and is one of the earliest records of music in ancient China. This time period is known as the Neolithic Hongshan Culture.

computationally read music notation in documents. The goal of OMR is to teach the computer to read and interpret sheet music and produce a machine-readable version of the written music score. Once captured digitally, the music can be saved in commonly used file formats, e.g. MIDI (for playback) and MusicXML (for ...

Optical music recognition - Wikipedia

Adopting the constructivist approach, especially building on Borer's (2005a, b, 2013a) XS Model, two theoretical elements in the theory of the syntax of events are put forward. The first element concerns the specific constraints on the interaction between conceptual meaning and syntactic derivation. The content of the predicate will be integrated into the interpretation derived from the ...
